

**CISC / CMPE 327, Fall 2025**  
**Project Assignment #1: Initial Project Setup and Test Case Generation**  
Due: Sept. 21, 2025

In this assignment, you will download and run a sample project “Library Management System” with few functionalities developed for you. The project is currently available on GitHub that you can access through: <https://github.com/anwardr/CISC327-CMPE327-F25>

You can either clone or download ZIP version to your local machine to complete your tasks by following the readme.md instruction file.

**Submission Detail:**

After completing all the tasks, Zip your project and upload it under Assignment1 in OnQ.

**Grading Criteria:**

1. Successful execution of the web application - 25%
2. Project implementation status document - 25%
3. Unit test script files - 50%
